STATE OF MONTANA

BIENNIAL REPORT OF  
THE COMMISSIONER OF STATE LANDS  
AND INVESTMENTS

Helena, Montana  
October 4, 1946

His Excellency, Sam C. Ford,  
Governor of the State of Montana

Sir:

In accordance with Section 1805.10 of the Revised Codes of Montana, 1935, I herewith submit the Biennial Report of the Commissioner of State Lands and Investments for the two-year period beginning July 1, 1944, and ending June 30, 1946.

Respectfully submitted,

J. W. WALKER,  
Commissioner.

## General Information

### GROSS INCOME

The gross income of this Department is derived principally from grazing rentals, returns from agricultural crop share leases, rentals from oil and gas leases and interest received on the investment of permanent funds. After deductions provided by statute have been made, the balance of this money is distributed at the end of each calendar year to the common schools of the state on a school age per capita basis. The income from agricultural leases fluctuates from year to year in accordance with crop conditions existing throughout the state. A favorable season shows a substantial increase in receipts whereas during dry years there is a proportionate decrease. Our income has also been materially affected by the low interest rate now prevailing in the investment of permanent funds. Due to the small number of bond issues offered by school districts, counties and municipalities in recent years, it has been necessary to invest most of the permanent funds in the United States Government bonds drawing only 2½% interest. We give you a comparative statement of income for the past 10 years in the following tabulation:

#### Gross Income for Year

Ending	
June 30, 1937	\$1,019,368.40
June 30, 1938	1,050,325.94
June 30, 1939	1,117,175.45
June 30, 1940	1,387,448.34
June 30, 1941	1,414,719.86
June 30, 1942	1,756,649.80
June 30, 1943	1,557,881.59
June 30, 1944	1,829,809.42
June 30, 1945	2,319,047.69
June 30, 1946	2,040,982.25

The above mentioned income is derived from lands granted to the State of Montana under the Enabling Act for the benefit of the common schools of the state and also the state institutions of higher education.

It may be well to mention the fact that there is a clear distinction between Gross Income and Permanent Fund receipts. Permanent Fund receipts are derived from the sale of land, timber, oil and gas royalties, coal and other minerals. These receipts yearly increase the amount of the permanent fund of the common school and also the other state institutions and are invested through the Montana Trust and Legacy Account. Only the interest from these investments becomes available for distribution.

### **TOTAL ACREAGE UNDER LEASE**

Every section or fractional section of state land suitable for grazing or agriculture is now under lease. On June 30, 1946, there were 3,953,-288.85 acres under lease for grazing, 50,645.56 acres under cash agricultural leases and 422,775.70 acres under crop share leases, a total of 4,426,710.11 acres which constitutes 99 per cent of all unsold state land exclusive of forest land. This is the highest percentage of leased land in the history of the department, and the largest number of acres ever under lease at any one time in comparison with the total acreage owned.

### **CROP SHARE RETURNS**

The State of Montana having approximately 422,775.70 acres of farm land operated on a crop share basis, it has become necessary to employ a larger field force in order to give special attention to the collection of crop share rentals due the State. Deputy field agents are assigned during harvest season to agricultural counties to facilitate the collection of the state's share of all crops.

### **SUBLEASING OF STATE LANDS**

The 1945 Legislative Session by Chapter 207 amended Section 1805.32 relating to subleases so that a sublease on state owned land must now be approved by the Commissioner and a copy of the sublease placed on file in the Land Office. No sublease on state lands may legally be made at a rental in advance of that paid by the original lessee to the State. This statutory provision eliminates speculation in state land leases by absentee landlords and gives protection to permanent residents of the state. They are the actual users of state-owned lands and entitled to all the benefits to be derived therefrom.

### **COOPERATIVE STATE GRAZING DISTRICTS**

On March 17, 1939, Chapter 208 of the 1939 Session Laws went into effect, creating the Montana Grass Conservation Commission, and providing for the organization of cooperative state grazing districts. Under this plan certain units of grazing lands in which state lands may be included are supervised by the districts thus created and are apportioned to members in such manner as to enforce the conservation of the State's pasture resources, not only by prevention of over-grazing but by developing stock water in dry areas. Grazing districts are required by law to lease all vacant state lands within their boundaries, and there are now 64 such grazing district leases, involving 392,082.19 acres, in effect.

The Department of State Lands is cooperating with the Grass Conservation Commission in the program of rehabilitating over-grazed areas, developing stock water in dry regions, and general conservation policies calculated to stabilize the stock industry and to preserve the State's grass resources.

## ACREAGE APPRAISED BY FIELD DEPARTMENT SINCE THE LAST BIENNIAL REPORT

Year Ending	Acres
June 30, 1945	537,314.19
June 30, 1946	603,835.29

The field men make their appraisal reports to the Chief Field Agent semi-monthly, and in addition to this work they make inspections, land-use investigations, special collections, and in the fall are assigned to the checking of crops in agricultural areas.

In compliance with Chapter 207, 1945 Session Laws, field classifications are being made to provide for the leasing of state grazing land on an animal unit basis.

## INVESTMENT OF PERMANENT FUNDS

Under the statutes, permanent funds of the schools and other institutions can only be invested in government bonds, bonds of the State of Montana, general obligation bonds of the political subdivisions of the State, and interest-bearing warrants of the general fund of the State and of the counties. The legality of the proceedings for the issuance of all school district, city and county bonds must be approved by the Attorney General before the State Board of Land Commissioners makes the final purchase.

Permanent funds are invested in authorized bond issues as early as possible following receipt, with only enough reserve kept on hand to give the taxpayers the protection which is afforded by the State being in a position to bid on their bond issues.

## MONTANA TRUST AND LEGACY FUND

In the two preceding issues of this biennial report your attention was directed to the creation of this fund by an amendment to Article XXI of the State Constitution, and its operation explained.

At the time this law went into effect on January 31, 1941, the State Treasurer transferred all permanent fund cash balances then on hand and belonging to the various institutions hereinafter mentioned to the Montana Trust and Legacy Permanent Fund cash account for investment. The investments held by these funds prior to this transfer remained as they were for future redemption and liquidation. The funds directly affected were:

Common School,	Deaf and Dumb Asylum,
University,	State Reform School,
Agricultural College Morrill,	Ryman Library,
Agricultural College 2nd Grant,	Ryman Fellowship,
School of Mines,	W. W. Dixon Endowment Fund,
State Normal Schools,	

Other funds have since been added.

Under this unified investment plan, all receipts for the permanent funds of the various institutions are transferred to the common fund

at the end of each month. Eventually as investments now held by the separate funds are redeemed, the entire amount of each fund will be part of the Montana Trust and Legacy Fund. In the meantime, the income from the outstanding investments not part of the common fund goes direct to the institutions concerned. The income from the pooled investments in the common fund goes into the Montana Trust and Legacy Interest and Income Fund, from which it is distributed quarterly to the various funds on the basis of the average balance each fund had in the common fund for the past 90 days.

The system established by the above mentioned constitutional amendment, and now in use, has greatly simplified the investment of permanent funds and the distribution of interest earnings.

#### **U. S. PATENTS TO SECTIONS 16 AND 36**

The work of securing United States patents, as evidence of title, to numbered school sections in place has gone on slowly during the past biennium with the limited funds available. On June 30, 1942, patents had been secured for 1,744,468.30 acres. During the period from June 30, 1942 to June 30, 1944, patents were received for an additional 570,996.92, making a total acreage to which the State has received patents of 2,315,465.22 acres. Prior to the passage of the Act of Congress of June 21, 1934, authorizing the issuance of such patents, the State's title to Sections 16 and 36 rested merely upon the general grant made by Congress on the admission of Montana to the Union, and in many instances titles were doubtful because of mining, forest or homestead withdrawals made before the time of survey. The application for patents has brought all such cases to light and definitely settled the question of title one way or the other. In 1943 Indemnify School Land Selections were completed for 1,556.69 acres, and there is a lieu land selection now pending for 200 acres.

Since the last biennial report the office has applied for additional patents but so far none have been issued by the United States Government.

\*Soldiers' Home Grant.

§Orphans Home and T. B. Society.

This summary shows only the results of the sales as they are made, and does not take into account subsequent cancellations of certificates of purchase. It will be noted that since 1933, the average sales price has in some years dropped below \$10.00 per acre, which was the minimum originally fixed by the Enabling Act. By Act of Congress amending the Enabling Act and accepted by the State in the 1933 Legislative Session, grazing land may now be sold for \$5.00 per acre.

When lands are sold, and when sales contracts are cancelled, the figures of "lands unsold" are changed accordingly. When losses have been sustained in Sections 16 or 36 and "lieu lands" are selected in another county, the lands are shifted and the figures altered. On account of these constant changes the table of unsold lands does not long remain accurate; but all the same it gives a good idea of the quantity and distribution of the lands.

Deaf & Dumb Asylum	25,851.61	1,729.81			2,079.03
State Reform School	24,073.96	1,852.36	110.00	72.00	3,893.08
Capitol Building	49,667.44	3,435.46	119.00	106.00	2,386.25
Soldiers' Home	1,296.64	63.14			
O. H. & T. B. Society	Lots	10.00			
State Prison					
General Fund	5.00	15.00	20.00	150.00	
<b>TOTALS</b>	<b>3,953,288.85</b>	<b>\$ 242,917.08</b>	<b>50,645.56</b>	<b>\$ 30,325.67</b>	<b>422,775.70</b>
Total acreage under grazing leases					3,953,288.85
Total annual grazing rental					\$ 242,917.08
Total acreage under cash agricultural leases					50,645.56
Total annual agricultural cash rental					30,325.67
Total acreage under crop share leases					422,775.70
Income from crop share leases for year ending June 30, 1946					473,965.04
Total acreage under lease for all purposes					4,426,710.11
Total income from said acreage					\$ 747,207.79
Average grazing rental per acre				.064c	
Average cash rental for agricultural land				.60c	
Number of grazing leases in effect				6,929	
Number of crop share leases in effect				1,374	

This includes 392,082.19 acres at a total annual rental of \$11,687.11 which is under lease to Cooperative State Grazing Districts. As grazing districts are required to lease all the state-owned land within their own boundaries, regardless of its value, the policy has been adopted of leasing the lands in a district at a flat rate, which may be somewhat below the average grazing rate on state lands leased to private individuals. This has resulted in cutting the average rental received on grazing lands but has placed many acres, which have previously lain idle to supervised grazing use.

# LEASING OF STATE LANDS FOR OIL AND GAS, COAL AND OTHER MINERALS

Total Producing Leases, 87; Total Producing Acreage, 31,345.11							

The leasing of state lands for oil and gas exploration and development is governed by Sections 1882.1 to 1882.24, Revised Codes of Montana, 1935, and Chapter 109 of the 1941 Session Laws.

Under this legislation, oil and gas leases on state lands are granted for a period not exceeding ten years and as long thereafter, during the term of twenty years commencing with date of the lease, as oil and gas in commercial quantities is produced from the land. The minimum annual rental is fixed at the flat rate of 75 cents per acre, but with a minimum total rental under each lease of \$50.00 per annum. No oil and gas lease shall include more than one section of land, but there is no restriction as to the number of leases that may be issued to a lessee.

The statutes require that at least one well shall be drilled under each lease within two years after date of its issue, but power and authority is given to the State Board of Land Commissioners to extend the time for commencement or completion of such drilling from year to year not exceeding ten years from date of the lease, upon such terms and conditions as the Board may determine. It has been the general practice

of the Board to grant such extension of time upon payment of a penalty of \$1.00 per acre per annum. Such extension of time for drilling does not release the lessee from the obligation of drilling offset wells. During the biennium, penalties for failure to drill and for extension of time amounted to \$34,072.10.

In addition to these rentals and penalties for delay in drilling, there is reserved to the State a royalty on oil and gas produced and saved of twelve and one-half per cent of the production. Oil and gas royalties collected for the last two fiscal years amounted to \$177,046.02.

On January 22, 1934, the State Board of Land Commissioners ruled that all lands for which applications for oil and gas leases have been made shall be advertised for leasing through oral competitive bidding in the Montana Oil Journal. No preference is given at such bidding except in the case of a renewal lease. During the biennium, bonus bids amounted to \$67,314.50.

#### COAL LEASES

Grant	Number	Acreage	Advance Royalty Deposit Required
Public School Lands	8	2,080	\$600.00

The leasing of state lands for coal mining is governed by Sections 1805.38 to 1805.47, Revised Codes of Montana, 1935. These leases are granted for a term of five or ten years at a minimum advance royalty of \$50.00 annually, and royalty of 12½ cents per ton. A surety company bond in the amount of \$1,000.00 is required.

#### MINERAL LEASES

Grant	Number	Acreage	Annual Rental
Public School Lands	6	7,223.60	\$515.50
Farm Loan Lands	1	40.00	25.00
Totals	7	7,263.60	\$540.50

Leasing of state lands for metalliferous minerals or gems is governed by Chapter 148 of the 1937 Session Laws. Such mineral leases are granted for a period of one to three years and as long thereafter, during a term of fifteen years commencing with date of lease, as metalliferous minerals in commercial quantities are produced from the land. The minimum annual rental is \$25.00 per lease and the minimum royalty is five per cent of gross values. The lessee is required to furnish a surety company bond in the amount of \$1,000.00.

**TABLE NO. XXII**  
**SAND AND GRAVEL LEASES**

Grant	Number	Advance Royalty
Public School	3	\$490.00
University	1	75.00
School of Mines	2	125.00
<b>Total</b>	<b>6</b>	<b>\$690.00</b>

Permits are issued to the State Highway Commission and county commissioners for gravel for road purposes. February 14, 1945, the State Board of Land Commissioners instructed the department to issue sand and gravel leases to individuals and private concerns through competitive bidding. Under this system, the State is receiving from five to ten cents per cubic yard for gravel, or a total, since February 14, 1945, of \$6,058.96 in royalties.

### CONDITIONS OF STATE FARM LOANS

In our last biennial report we stated that twenty-five loans were still in force. Principally due to good crops and the high prices obtained therefor eight of these loans have been paid in full, leaving only seventeen loans in force as of June 30, 1946.

During the past biennium 12,303.99 acres of farm loan land have been sold at a purchase price of \$92,234.63.

There are 358 certificates of purchase on this land in effect as of June 30, 1946, and with the exception of a few in arrears the others are in excellent condition, and on a number of them installments of principal have been paid in advance.

The State has title to 513,017.51 acres of farm loan land. Out of this acreage certificates of purchase have been issued on 122,509.62 acres and 385,892.61 acres are under lease for grazing and agricultural purposes, leaving a very small amount of unused acreage.

Our records show that on January 1, 1935 there had been invested in farm loans the sum of \$4,250,625.95 by virtue of a Legislative Act. Farm loans and the lands deeded to the state in satisfaction thereof have been carried separately upon our books. The income derived from grazing leases, agricultural leases and the sale of this land has gone into the Farm Loan Sinking Fund. After paying any costs that might arise with farm loans, the balance of the fund is distributed quarterly on the basis of 2% interest on the unpaid balance of the Farm Loan Investment to the Public School Interest and Income Fund and the remainder is transferred to the Public School Permanent Fund as repayment on the original investment. The total net receipts for the last two fiscal years have amounted to \$762,885.95. This sum has been distributed \$92,165.15 to the Public School Interest and Income Fund and \$670,720.80 to the Public School Permanent Fund.

From January 1, 1935 to June 30, 1942 the record shows that repayments from the sources mentioned above had reduced the original investment to \$3,458,063.14. From July 1, 1942 to June 30, 1946, during a period of four years, due to good seasons and high prices the further sum of \$1,499,796.13 was applied on the original investment, leaving \$1,958,267.01 yet to be retired before full repayment has been accomplished.

**TABLE NO. XXV**  
**FARM LOAN LAND AGRICULTURAL AND GRAZING LEASES**  
**IN EFFECT JUNE 30, 1946**

Name of Grant	Grazing Acreage	Annual Grazing Rental	Agri- cultural Acreage	Annual Cash Agri- cultural Rental	Acres Under Crop-Share Lease
Public School . .	230,688.09	\$14,208.62	6,874.65	\$3,575.70	148,329.87
Acres under grazing leases				230,688.09	
Annual grazing rentals					\$ 14,208.62
Acres under cash agricultural leases				6,874.65	
Agricultural cash rental					3,575.70
Acres under crop share leases				148,329.87	
Crop returns for year ending June 30, 1946					91,768.38
<b>TOTALS</b>				<b>385,892.61</b>	<b>\$109,552.70</b>

Minimum crop share rental is one-fifth to be delivered to elevator:

Average grazing rental per acre . . . . . \$ .06159

Average agricultural rental per acre . . . . . .52012

This includes 14,649.12 acres grazing land at an annual rental of \$628.96, which is leased to Cooperative State Grazing Districts. See note on Table XX.)
